## Investigation of Nursing Student Satisfaction with the First Clinical Education Experience in Universities of Medical Sciences in Iran • JML Journal of Medicine and Life

This is illustrated in Figure. Nonetheless, this is a measure easy to comprehend and communicate. According to 2016 figures, Nordic countries top the ranking: Finland, Norway, Denmark, the Netherlands and Iceland have the highest scores all with averages above 7.

### ERIC

Interestingly, this chart also shows that while there are some countries where the perceived sense of freedom is high but average life satisfaction is low e.

### Satisfaction Quotes (501 quotes)

The General Social Survey GSS in the US is a survey administered to a nationally representative sample of about 1,500 respondents each year since 1972, and is an important source of information on long-run trends of self-reported life satisfaction in the country. The findings further accentuated that administrators of regional universities should focus their attention more on these three factors other than tangibility, competence and delivery. .

### Satisfaction Quotes (501 quotes)

Thus, academic achievement was only positively associated with LS for students attending the same school track as their parents did but not for students attending a higher school track than their parents did. A better source of evidence are longitudinal surveys where people are tracked over time.

## **Factors affecting the student experience**

That goal must be attained by means of exact science and can only be achieved by such means. These studies provide two main insights: First, the gap is partly driven by differences in household income and employment. Marketing Intelligence and Planning, pp.
