FST 1

It will also serve as a primer for those taking a postgraduate course in meat science, and provide useful background for professionals in food hygiene and meat inspection.

Meat Science: An Introductory Text by P.D. Warriss

Consistency rating: 5 The text is internally consistent in terms of terminology and framework. All links will need to be checked to make sure they still work.

Human Nutrition [DEPRECATED]

Consistency rating: 5 The text was internally consistent and works well as a whole.

Human Nutrition [DEPRECATED]

Chapter 12 content on Nutrition Applications may be better to incorporate earlier in the text prior to any nutrients so learners have contextual information on DRIs, AMDRs, and food labels before encountering recommendations related to individual nutrients. The chapters related to chronic diseases and eating habits around the world are particularly well done.

Meat Science

Nair, Janet Rogers, Steven D. Chapter 12, Nutrition Applications, should be presented sooner.

Meat Science: An Introductory Text

Legako Texas Tech University , Richard D. Interface rating: 5 My only suggestion is to allow the contents outline to be visible no matter how far the reader scrolls down.
