Those census schedules were usually not retained. Clicking on the province's two letter abbreviation will take you to a list of census divisions for that province with links. Small towns and villages were usually enumerated within the surrounding township and not identified separately.

Censuses

However, these censuses were often taken in different years, and it was not until 1871, after the Dominion of Canada was created, that censuses were taken regularly.

Census subdivision (CSD)

Single-tier municipalities are either former regional municipalities or counties whose municipal governments were amalgamated in the 1990s into a single administration. Only the names of the head of each household were recorded, not the names of other household members. New in 1996 Area Profiles can be accessed much earlier than in 1991.

Census subdivision (CSD)

In most years, the Districts corresponded to a city or county and the Sub-districts corresponded to a town, city ward, township, parish or other local jurisdiction. New in 1996 Area Profiles can be accessed much earlier than in 1991.
