Department of Neurology

While marketing scholars have eagerly integrated neuroscientific evidence into their theoretical framework, neurology has only recently started to draw its attention to the results of consumer neuroscience.

Scientific foundations of neurology. (Book, 1972) [public-docs.talentcoach.ir]

Cambridge; London: The MIT Press. In some cases, these symptoms can be debilitating and result in severe disabilities and impairment in quality-of-life.

About Us

Neurologists may also be involved in , , and or. After graduating from the American University of the Caribbean School of Medicine, Dr.

Claudio Soto, PhD

In 2008, she started the Vascular Neurology Fellowship at Westchester Medical Center, which is accredited by the ACGME. The first allowed for the visualization of individual neurons.

Claudio Soto, PhD

However, that was uncommon and, now that it takes three years to obtain, would no longer be practical. Direct trauma to the brain requires careful and dedicated care often involving a lengthy course of rehabilitation.

World Federation of Neurology

Also, many nonmedical doctors, those with doctoral degrees usually PhDs in subjects such as biology and chemistry, study and research the nervous system.

Neuromarketing and consumer neuroscience: contributions to neurology

Discussion: In this paper we address key research topics of consumer neuroscience that we think are of interest for neurologists; namely the reward system, trust and ethical issues. The scope of neuroscience has broadened over time to include different approaches used to study the nervous system at different scales and the techniques used by have expanded enormously, from and studies of individual neurons to of , and tasks in the. His research has been funded by multiple grants from the NIH, the American Parkinson Disease Association, the New Jersey Commission on Spinal Cord Research, and other foundations.
