### About this Subject Guide

In Islam, serving one's parents is a duty second only to prayer, and it is their right to expect it. If a male provider is examining a patient, it is of the utmost importance for the provider to explain the steps of the physical exam to the female patient and, if clothing must be removed, to be removed for as little time as possible.

### About this Subject Guide

Islamic Services of America is a leading Halal Certification body in the United States and North America, recognized internationally in every sector of the Halal industry including meat and poultry, slaughter and production services. Nevertheless, about two million people go to Makkah each year from every corner of the globe providing a unique opportunity for those of different nations to meet one another. What Are Some Common Mental Health Issues? Children begin to fast and to observe the prayer from puberty, although many start earlier.

However, even most orthodox Muslims recognize that in a medical emergency, saving a patient's life takes precedence over finding a female or male professional and that having a male provider treat a female patient or a female provider treat a male patient is acceptable in an emergency situation. Fasting Muslims may create a challenge for the administration of drugs as they may refuse treatment.

### Indigenous student support
