## South African Languages

The other sentences simply illustrate the dramatic downdrift in the language.

## South African Languages

This may or may not be followed by one or several alternate names differing forms, variant spellings, etc. With regard to linguistics there has been, however, a generally amicable relationship, perhaps because its agents have not been terribly self-conscious or introspective. Under one proposal Nilo-Saharan would be seen as the older, earlier branch of the macrophylum also containing Niger-Congo.

## New Encyclopedia of Africa Vol 3

In Kisi there is just the same patterning of a primary and a secondary marker of negation.

## Bantu Online Bibliography

Back New Search combinatory variants.

## The Bantu Bibliography Supplement

Why, then, are outsiders unable to understand it, or rather, why do outsiders say they cannot understand it? Where animals talk: West African folk lore tales.
