Looking east over Buffalo Bay.

CoastWatch Great Lakes Map

Black bears can be found as far south as central Mexico and as far north as northern Alaska and most of Canada. By Friday afternoon the majority of the bay that we can see is open except a stretch immediately North left of Kennard Island.

Map of where bears live in North America

The SRB radiation data have been shown to be one of the best global radiation datasets and exhibit smaller biases than reanalysis data and other satellite products.

Satellite Map of Ontario

This page used to use Google maps but they started charging 16 July 2018.

Maps and Network

Like the printed version, the Official Road Map of Ontario online is separated into Southern Ontario and Northern Ontario.

Map of where bears live in North America

Looking ahead, the yellow line shows how it will go if the weather forecast comes true. The ice cleared fairly rapidly in both 2018 and 2019, with the lake going ice-free on May 14th both years. Lakes Mondsee, Neusiedler, and Wörther Woerther See are located in Austria and sampled daily at a depth of 0.

Southwestern Ontario Map

The scale will change so that you can home in accurately on your location.
