Why did God command the extermination / genocide of the Canaanites, women and children included?

It also reveals more of the real James Herriot than ever before.

Why did God command the extermination / genocide of the Canaanites, women and children included?

The final instalment of James Herriot's Alfred Wight's All Creatures Great and Small series, Every Living Thing is indeed a grand farewell for and to the author's veterinarian memoirs, not only revisiting the familiar James Herriot's dealings with his partner Siegfried Farnon, the latter's absentmindedness and sometimes mercurial temperament, the many animal cases seen and treated, with often positive but also at times negative and sad outcomes, and with familiar characters like eccentric but sweet Mrs. The final instalment of James Herriot's Alfred Wight's All Creatures Great and Small series, Every Living Thing is indeed a grand farewell for and to the author's veterinarian memoirs, not only revisiting the familiar James Herriot's dealings with his partner Siegfried Farnon, the latter's absentmindedness and sometimes mercurial temperament, the many animal cases seen and treated, with often positive but also at times negative and sad outcomes, and with familiar characters like eccentric but sweet Mrs. The second thing is all the tedious detail about how he treated the different ailments of the animals. The museum is the actual surgery where the stories take place.

What Are The 6 Basic Needs Of All Living Things?

Completely destroy them — the Hittites, Amorites, Canaanites, Perizzites, Hivites and Jebusites — as the LORD your God has commanded you. This process of constant development and growth is also called organogenesis.

Psalm 145:16 You open Your hand and satisfy the desire of every living thing.

You open Your hand and satisfy the desire of every living thing. That is why there are so many different species if you want to look at it that way - everyone adapted to a specific temperature range, in one particular place, even within a specific period. For example, they bind to receptors on cells, inject their genetic material into the cell, and can evolve over time within an organism.

JOB 12:10 KJV whose hand [is] the soul of every living thing, and the breath of all

O LORD, You preserve man and beast.

Importance of Teaching Life Cycles

I was also glad to see a few pictures he included in this book. You open your hand and keep on satisfying the desire of every living thing.

Characteristics of Living Things

After fertilization, once the zygote is formed, the cells start differentiating into their types, and over a certain period of time, give rise to a fully developed, mature living entity. Your family will enjoy meeting many different animal friends, like cats, dogs, bird, turtles, cows and more! Thou openest Thy hand, And satisfiest every living thing with favour.

Importance of Teaching Life Cycles

When you open your hand, you satisfy the hunger and thirst of every living thing. Well, living in specific temperatures is a demand all species try to keep up with. Greed and Power are primitive urges that helped us to gain prominence, But now it's time to shed those basic urges to evolve to guardians of the earth and beyond.
