**I found that by tracking Earth's shadow instead of the moon it is much easier to visualize what happens during a lunar eclipse. Watch as our moon just drifts through Earth's waiting shadow. : gifs**

Two brothers growing up in a small Scottish mining town become convinced the albino man living in their street is an alien. These are not allowed in posts or comments - No exceptions. Some light marking and sunning.

**Potpourri of Science Fiction Literature: 1973: Earth's Other Shadow (Silverberg, Robert)**

The child actors are so good and the setting isn't glamourised, 1950s Scotland as I remember it.

**Earth's shadow**

The Hammer causes charged ranged attacks by Talion to freeze nearby enemies. What makes the Threshing Hammer so powerful is its primary effect, which grants a 100% chance to cause an enemy to explode upon a headshot—potentially damaging and terrifying the nearest Orcs to the poor victim of Talion's wrath. Not quite super or blood-colored.

**Shadow on the Earth (TV Episode 1988)**

As man with great scientific curiosity, Eratosthenes Of Cyrene later became the chief librarian at the Library of Alexandria in Egypt.
