ERIC

Recommendations can be made to the school board and other influential decision makers for improving alignment. He also reviewed the obstacle of determining which problems should be prioritized, or which problems deserve supplementary resources.

## Part 2: Systems Level: Evaluating School Psychological Services Delivery Programs

The author explained that teachers use effective classroom management in order to manipulate antecedent conditions and reduce possible consequences.

### School Consultation

Using this model, the referral problem, environment, intensity of intervention needs, and intervention outcomes are emphasized. Finally, the school psychologist and other school professionals must engage in hypothesis-testing in order to select, and then evaluate, interventions.

ERIC

Practitioners, graduate students, interns, and faculty will appreciate the thorough coverage contained in this set. The Depth and Breadth of Services. Problem-solving consultation emphasizes the cooperation between school psychologists and teachers to define the problem and develop potential solutions.

## Part 2: Systems Level: Evaluating School Psychological Services Delivery Programs

Deno provided regular intervention sessions to the student and a program was designed for the teacher to implement within the classroom.

### School Consultation

No system-wide analysis is undertaken. .
