Advances in the Dyeing and Finishing of Technical Textiles

Yet since then they have been largely forgotten. Style in aesthetics was defined by Paul Nystrom, a former marketing specialist, as the characteristic manner of expression. For automotive textiles, fluctuation in the market demand is certainly a thread.

Smart Clothes and Wearable Technology

Because the Oeko-Tex standard has developed such stringent requirements for the final product, certified products demonstrate that they are free from the substances that harm human health and the environment. Attending to the form means not only attending to the details of surface but also to the lines created, such as the silhouette and the shapes of buttons, or cut of sleeves and collars.
