### wake

When a visual approach following a preceding aircraft is issued and accepted, the pilot is required to establish a safe landing interval behind the aircraft he was instructed to follow. Yes I would advise other aircraft if I saw a Kangaroo on the day, bit, I wouldn't tell them everyday that I saw a Kangaroo once upon a time.

### Caution Wake Turbulence : flying

To simplify the high pressure below the wing which creates lift wants to equalize with the lower pressure above the wing. The strongest wake can occur when the helicopter is operating at lower speeds 20 to 50.

### Wake turbulence

Just one quick slamming jolt, but dang we all got worked!.

### FAA Advisory Circular, AC

Some years ago at Sydney an A380 on final for 34L almost upended a SAAB 340 on final for 34R at a low altitude. I have been here before.

### Caution Wake Turbulence: New Rules for the EU

Well let me tell you, wake turbulence is not your friend.

### Caution Wake Turbulence: New Rules for the EU

EXAMPLE- A puff of smoke may appear at the 1,000-foot markings of the runway, showing that touchdown was that point; therefore, adjust point of intended landing to the 1,500-foot markings. The ability for the prop to output enough thrust to make the power required to drive it worth

the weight of the motor becomes increasingly out of balance.
