WRI Aqueduct Water Risk Atlas

ST-Segment Depressions Accompanying Left Ventricular Hypertrophy Left ventricular hypertrophy LVH appears commonly on routine electrocardiograms and in patients presenting with chest pain, dyspnea and other cardiovascular complaints.

Chapter 6

The tracings are most commonly arranged in a grid of four columns and three rows. In adults, a normal heart rate is between 60 and 100 bpm normocardic , whereas it is higher in children.

Atlas of paced body surface QRS integral maps for localization of the site of origin of postinfarction ventricular tachycardia

This therefore creates a positive deflection in the ECG, and creates the T wave. And in both conditions, the troponin levels may be elevated on presentation.
