Research report / Polytechnic of North London, Department of Applied Social Studies, Survey Research Unit -- no.1  
Quality of life of the elderly in residential care - a feasibility study of the development of survey methods  
Notes: Bibliography: p. 157-176.  
This edition was published in 1979

Table 1. Sample characteristics by primary sampling unit (PSU) for the total sample (n=4,000)

	PSU						Total
	1	2	3	4	5	6	
	(n=1,000)	(n=1,000)	(n=1,000)	(n=1,000)	(n=1,000)	(n=1,000)	(n=4,000)
Women - n (%)	1,116 (55.6)	571 (57.1)	516 (51.6)	1,204 (60.2)	597 (59.7)	566 (56.6)	4,568 (57.1)
Age in years							
M (SD)	76.6 (6.6)	76.0 (7.6)	75.0 (7.4)	76.4 (7.4)	76.7 (7.3)	75.9 (7.2)	76.2 (7.2)
Range	65-99	65-100	65-97	65-100	65-100	65-97	65-100
Age groups - n (%)							
<65 years	1,401 (70.1)	686 (68.6)	737 (73.7)	1,944 (97.2)	686 (68.6)	697 (69.7)	5,526 (68.1)
≥65 years	599 (29.9)	311 (31.1)	263 (26.3)	560 (28.0)	313 (31.3)	301 (30.3)	2,474 (30.9)

Notes: \*Due to a transcription error, only individuals ≥65 years old were selected.

Furthermore, we demonstrate good feasibility, acceptability and fidelity in terms of recruitment, retention, adherence and delivery of behaviourally informed exercise support, with very few adverse events. Wendel-Vos GC, Schuit AJ, Saris WH, Kromhout D.

## Feasibility assessment and implementation strategies of green care in rural Taiwan

All dispensings were included because pharmacists are expected to inquire about all prescription therapies including dispensings from other pharmacies. LS and CVV contributed to the conception of the study and analysis of results and reviewed the manuscript for psychometric accuracy and applicability to assessment of practicing health care professionals.

## Embedding supervised exercise training for men on androgen deprivation therapy into standard prostate cancer care: a feasibility and acceptability study (the STAMINA trial)

Gariballa SE, Parker SG, Taub N, Castleden CM: A randomised, controlled, single blind trial of nutritional supplementation after acute stroke. The primary outcome measure was the Neuropsychiatric Inventory-Nursing Home version at 3 months.

## Feasibility of Quality Indicators for the Management of Geriatric Syndromes in Nursing Home Residents

A multi-centre investigation of delivering national guidelines on exercise training for men with advanced prostate cancer undergoing androgen

**Monitoring Community Pharmacist's Quality of Care: A feasibility study of using pharmacy claims data to assess performance**

deprivation therapy in the UK NHS. Leblanc A, Légaré F, Labrecque M, Godin G, Thivierge R, Laurier C, et al. Nine 13% would not be included in systems assessing quality of care for persons with advanced dementia or poor prognosis.

### **Medication review plus person**

Accordingly, three alternative models for senior green care participation were proposed, including green occupational therapy for residents , rural long-stay tourism for tourists , and agricultural working holiday for volunteers. As such, these specific audio recordings could not be coded for fidelity or included in the analysis.
