Notes from Underground Quotes by Fyodor Dostoyevsky

Finally, there is the global concern connected to emissions of greenhouse gases, which fracking only exacerbates. While the environmental harm directly related to other fossil fuels is flagrant enough to make those caused by fracking seem benign, there are significant issues the fracking industry would prefer to ignore — and, of course, contamination of a large aquifer could be just one mishap or earthquake away. Their gift of a basic Chemcraft kit set off a lifelong fascination with science and, well, underground technology.
