## Euratom Supply Agency annual report 2019

### Browse by EU Annual Reports

By the same token, the Euratom research and training programme mainly sought to enhance the safety of nuclear technologies by supporting research on all aspects of nuclear safety and to advance solutions for the management and disposal of spent fuel and radioactive waste and for the decommissioning of nuclear facilities. The annual report concludes with an overview of the ESA management, administration and finances.

## Euratom Supply Agency annual report 2019

The report further presents the overview of Euratom activities. Natural uranium supplies, as well as provisions of services to the EU continued to come from diverse sources. However, the full reliance on a single supplier for VVER fuel fabrication remains a matter of concern.

## Report on the annual accounts of the Euratom Supply Agency for the financial year 2016

The Euratom perspective is complemented with the overview of the major actions, events, decisions and announcements in the nuclear field in the EU Member States. This annual report provides overview of nuclear fuel supply and demand in the EU.

## Report on the annual accounts of the Euratom Supply Agency for the financial year 2016

The report highlights some worldwide nuclear developments and examines the evolution of the nuclear fuel market. In 2019, special attention was given to safety, in particular with respect to long-term operation and to new safe reactor technologies, such as licensing of small modular reactors SMRs. If you accept it, the system will remember your language preference for future website visits in the next year; if you refuse it, your language preference will be recorded for this visit only.
