**Globalization and the Postcolonial World: The New Political Economy of Development by Ankie Hoogvelt, Paperback**

Of course, there have been collections of essays or readers still loosely gathered under the label 'development studies', but such readers reflect the fragmentation of the subject, mirroring the dissolution of the! Photos are stock pictures and not of the actual item. Thus each phase of capitalist expansion is described in turn and we review the theories that emerged, whether as hegemonic, legitimating, ideology or as counter-hegemonic critique, within each evolving phase.

## Globalisation and the Postcolonial World

The vigorous growth of the information driven 'new -economy' and its potential to overcome the crisis of capitalist accumulation, was yet to be revealed.

## postcolonialism

It is there that the foreshadowing of some important themes that became central to postcolonialism is found. To stick to the same example: the rise and fall of the Hong Kong stock market prior to its dramatic fall in 1996 was due in large measure to Chinese provincial authorities investing

borrowed money in Hong Kong's stock market and real estate. With dire consequences for the Beijing government's ability to hold the value of its currency and pay the peasants in northern China for its grain procurements.

Indeed in its heyday development studies was, in my view, an exemplar of all that was best about the social sciences — interdisciplinary, focused on big questions, engaged with them, political in the most generous sense of that word. One day this Master of the Universe is at a family party and his seven-year-old daughter asks, 'Daddy, what is it that you do? If people in the West. Their common ground was the state-market interaction as the embodiment of politics and economics in the modern world.

## **Rethinking Development Inside Political Economy**

Only now that the task is finished do I appreciate fully his xviii. If I mention them last it is not because of their contribution being least, but because theirs happened to come at the very end of all the other work: scrubbing the text clean and making it presentable for the publisher. This model sees globalization as consisting of expansions of all four of these networks of interaction, each of which may have differing boundaries, rhythms and results, diffusing distinctive forms of integration and disintegration across the globe.
