Petunia The Petunia is a classic and always popular flower.

## A Quest to Document the World's Flowering Plants

The blooms may be white, pink, blue, or red, and they are produced on this shrub which tends to live for a long time. Despite its designation as a cardiac poison, nicotine from tobacco is widely consumed around the world and is both psychoactive and addictive.

## 20 of the Best Spring Flowers

Once the flowers bloom, they will quickly spread their seeds and a sea of colorful blooms will grow for a short period of time before the plants die. For these more dazzling players—the orchids, the roses, the lilies—the world grows smaller, crisscrossed every day by jet-setting flowers in the cargo holds of commercial transport planes. The flower produces blooms in a range of colors, including rose, orange, and white.

## 7 of the World's Deadliest Plants

Hetz Holly has fooled many a gardener into thinking it's a boxwood; learn how to identify this type of Japanese holly here. You may find it in colors such as red to pastel pink.

## Flowering Plants Article, Flowers Information, Facts

Ornamental Cherry The Ornamental Cherry may be a deciduous or evergreen tree or shrub, reaching heights of 14 feet tall, depending on the variety. It is natively from South America, such as Uruguay, and the plant blooms between August and September. Bletilla Bletilla is also referred to as the Chinese ground orchid.

## Rafflesiaeae

For instance, estimates of the number of species in the orchid genus range from 1,120 to 2,500. The most common color for these plants is yellow,

with the bloom usually having two contrasting shades of yellow. It is also cultivated in some parts of the USA with warmer temperature such as Texas or California.

#### **Database of Common Names of Plants**

**Marigold** One of the beautiful flowers from the family Asteraceae can be seen mostly in Mexico and South America. Often grown as a component of alpine rock gardens, this plant can thrive in a wide range of regions across the United States, where it has become naturalized. **Trollius** *Trollius* is an herbaceous perennial, also known as a globe flower.
