## Radon concentrations and exposure levels in the Trepça underground mine: A comparative study

Information provided by PRC and TCRC indicate that the average length of time from the initiation of a project to some type of publication is about one year, but there is significant variance in this average. Environmental Protection Agency, Indoor Environments Division, Publication 402-K02-006, Washington, D. But don't go out and raise your house onto posts just yet! The Metal and Nonmetal Health Inspection Procedures Handbook provides instructions on calculating the contaminant's enforcement level.

## Twilight Zone Contrails

It proved instructive to study the correlation of radon with other parameters within each period. Ryan, United States Forest Service, and Calif

## APPENDIX A: REPORT OF THE PANEL ON OCCUPATIONAL HEALTH RESEARCH OF THE U.S. BUREAU OF MINES

Simultaneous measurement of radon and thoron exhalation rate from soil and building materials C. One example is the armored faced conveyors in longwall operations, which can be extremely noisy when there is little or no coal being carried; modifying the conveyor to have variable speeds dependent on load could reduce this noise.

## The Natural Radiation Environment VII, Volume 7

This new product offers improved. The remaining research within this element focuses on developing sampling and measurement technologies for respirable dust, diesel engine exhaust emission, and noise. .

## Radon exposure and health

Sampling locations were established at approximately 500-ft intervals along the arroyo. With this in mind, Air Chek, Inc. During the weeks of September 24 through October 5, 1979, a series of samples was collected from alternate sampling locations along the arroyo.

## Radon concentrations and exposure levels in the Trepça underground mine: A comparative study

Field tests are continuing on the water spray additives. J Radioanal Nucl Chem 1998; 236: 219225.

## **6 Top Radon Detectors to Protect Your Family**

Characterisation of Airborne Radioactivity in an Australian Dwelling.

### **Mine engineering and ventilation problems unique to the control of radon daughters (Technical Report)**

My wife and I are looking to buy a home in Central Massachusetts and we recently did a radon test in the basement as part of the home inspection. AlphaGUARD is used as a reference by many scientists and service providers worldwide for programs on radon measurement in the environment, mines, laboratories as well as for investigations in buildings.
