“Blob” Research Reveals Environmental Effects That Shut Down Fishing and Hiked Whale Entanglements

They are at home in large rivers and can move between salt and fresh water.

Applying

Females reach sexual maturity when they are about 9 to 14 years old, and males when they are slightly older.

Oceans & Coasts

At the same time, though, the focus on entanglements has led to better communication and conversation between fishermen, environmental groups, and managers.

Education: NOAA Office of Ocean Exploration and Research

Partnerships with these enforcement agencies help promote compliance with federal laws and regulations under our purview, and our law enforcement agents and officers leverage Joint Enforcement Agreement partnerships to conduct joint operations. These events typically continued into the following spring. Claire Williams, the paper's primary author and a research professor at American University, has spent decades studying long-range transport of tree pollen.
