## BLM NEPA Document Clearance Process

Locally, the project site is situated along the east and west sides of the Los Angeles LA River, and generally extends a distance of approximately 8 miles from State Route 91 SR-91 to the north to approximately 0. Based on the proposed amendment and requirement of the planning rule, the following substantive requirements of the planning regulations would likely be directly related to the proposed amendment: 219.

### Helena

Office spaces would be provided in the interior frontage of each building to support the business operations.

### Helena

ACTION: Notice of intent to prepare an Environmental Impact Statement.

### Watts Bar Reservoir Land Management Plan

When is a supplement to the EIS required? The State Office will coordinate with WO-630 to upload the finalized version of the FRN and send 3 original ink-signed signature pages of the notice by FedEx to WO-630. The building layout may be broken into six or more individual spaces depending upon final tenant demand. The notice of application must state the optional DNS process is being used and the public's opportunity to comment will be limited.

### Environmental Reports

Disease-related mortality has been identified as a factor that may adversely impact the population viability of bighorn sheep on the OWNF.

## **FERC Relicensing Public Documents**

Bighorn sheep were extirpated in the state of Washington by 1935. Q: Who is responsible for doing SEPA environmental review? Contact for additional help with accessing publications.

### **Reviewer's guide, draft environmental impact statement, proposed land and resource management plan, Siuslaw National Forest. (Book, 1986) [public-docs.talentcoach.ir]**

The preliminary need to change the Forest Plan has been organized into five focus topics. The responsible SES member may only sign the NOI if the EIS Project Team did not receive any questions, objections, or briefing requests within the allotted review time. PDF Maps Individual parcel allocations can be examined on the maps below: Click on the Viewer Map below to view the land plan zones.

## **Sustainable Harvest Calculation**

The Custer Gallatin National Forest began working on Forest Plan Revision, January 2016. The revised Forest Plan may also include preliminary administration recommendations for wilderness designation by Congress. Q: Does a DNS always have a public comment period? The Ute and Eastern Shoshone Tribes did not sign formal agreements with the Ashley National Forest but are treated similar to cooperators because of their sovereign status.
