Lingua Terrae Books Chemical Geology

SUMMARY In this paper, we revise names of Cretaceous and Tertiary rock units in the Colville basin and abandon the use of other names. Geological Survey of Canada Bulletin 508; 90 pp.

Publications

Geological Survey of Canada, Bulletin 62; 15 pp. However, the boundary between the Franklin Bluffs Member and the underlying White Hills Member cannot be correlated with a distinctive well log response, and, therefore, only an approximate contact can be identified. Geological Survey Open-File Report 98-471, 51 p.

USGS Professional Paper 1673

Geological Survey Open-File Report 93-309, 54 p.

Publications

Geological Survey Open-File Report 79-227, 64 p.

NSF Award Search: Award # 1338583

Contractual structures east of Sr i 0.

NSF Award Search: Award # 1338583

Geological Survey Open-File Report 89-556, 7 p. Geological Survey Open-File Report 80-513, 28 p. Land Records Information Section, 1997,

Land status and mining claims for Chulitna geophysical area, Alaska.

U

The two units constitute deposits of a prograding delta plain and marine shelf and are characterized by a complicated pattern of lateral facies changes and both vertical and lateral interfingering of marine, marginal marine, and nonmarine beds. Bureau of Land Management, Fugro Airborne Surveys, and Stevens Exploration Management Corp. Geological Survey Professional Paper 1399, p.
