Antlion

Paris, France: European and
Mediterranean Plant Protection
Organization. Sand pit trap with remains of
an ant Antlion larvae require loose soil, not
necessarily, but often, sand.

Pheidole bicarinata

The literature cited here is not meant to be
an exhaustive list of papers published about
this species.

Filesize: 23.52 MB

Carpenter ant

Description Original Combination - *Camponotus herculeanus* var. Pronotal spines also occur in two Dominican amber fossil species, *Pheidole tethaea* and *Pheidole primigenia*; Some will sting or bite.

Red imported fire ant

The was a mythical ant-lion hybrid written about in the 2nd century AD, where animal descriptions were paired with Christian morals. When the food source is exhausted, no new trails are marked by returning ants and the scent slowly dissipates.
