O'Malley's plan was to set up an exhibition of Irish painters to show in Ireland and take to England, and for Rothenstein to set up an exhibition of English painters to show in England and take to Ireland. O'Malley accepted the offer, but refocused the subject. Overcome with grief at the death of her first husband, Gluckel decided to write her memoirs and the history of her family.

The placing of these incidental signs at extremes of the composition, whose centre is the empty space of the sea, further encourages a sense of movement. Margaret Hapgood established a level-of-living index for every county of the USA which could be utilized by the Census Bureau and successive government policy makers. Though firm Presbyterians, the duchess and her husband maintained their strong Royalist sympathies.
