Patient Educ Couns 50 1 : 85-9, 2003. There is also a dearth of information regarding the association between agreement and communication. Br J Hosp Med 41 4 : 330-3, 1989.

## Cultural beliefs and values in cancer patients

This book is for physicians, nurses, hospice and palliative care professionals and public health professionals who would like to understand the ways we can improve clinician-patient communication in culturally diverse medical settings. Tabrizi needs to keep his strength up if he hopes ever to go home; thus he will need to nourish himself by eating more.

Communicating with Children About Their Cancer In seriously ill adults and also in children, uncertainties about the future often provoke a profound sense of loss of control. N Engl J Med, 343, 78—85.

### **Cancer: A Failure to Communicate**

Photo by NIH Who can benefit from reading this book? Cultural competence always presupposes oncology professionals' awareness of their own cultural beliefs and values. Diagnostic Disclosure and Discussions About Prognosis When there was little in the way of effective anticancer treatment, physicians shied away from disclosing the cancer diagnosis for fear it would send a patient into a mental tailspin.
