## Soaring Safety Foundation

Written by professional cabinetmakers, this volume offers a number of production methods used in cabinet shops, which could prove useful for both home woodworkers and professionals. Very good in very good dust jacket. If the original book was published in multiple volumes then this reprint is of only one volume, not the whole set.

## Commercial art techniques (1952 edition)

NO changes have been made to the original text.

## Soaring Safety Foundation

Students should obtain copies of these documents when training begins.
