ECD315 Week.3

Teaching Young Children, 3 4 , 1—4. Programs can sign up to access the tool at this link: You may work in a program or a system that provides tools and guidance for observation and documentation. How does observing a child affect you? Clay shapes- students get clay to create shape and then paint it.

Observation, Documentation, and Reflection

Check back every week of your pregnancy to see how your baby is developing and to find out what changes you can expect in your own body, too! It explains accepted methods of recording observations and the applications of those methods, including their advantages and disadvantages.

Presentations Archive

While standards vary, many include how infants and toddlers typically develop at different ages in the following developmental areas: social-emotional, cognitive, language, approaches toward learning, and perceptual and motor. Please note: All programs filmed in this project are in full compliance with licensing regulations at the time of filming.
