## The Architecture of Secularism

In 1539 his advice was taken on reshaping the base for the ancient Roman statue of Marcus Aurelius. Our steadily increasing involvement in the rest of the world, not for territorial gain, but for peace and freedom and security, is a fact of recent history.

## peter zumthor's 'secular retreat' for living architecture nears completion

When I invited him here I explained that we were planning a series of Millennium Evenings designed to mark this specific turning point in history by honoring the past and imagining the future.

## Food and Design: a report by Dezeen for Scholtès

Most architects design their buildings as a shell and force their way inside. Its immense barrel-vaulted nave extended on each side by tall chapels was inspired by the monumental interiors of such ancient ruins as the Basilica of Constantine and Maxentius in the Roman Forum. Will it discourage other dictators in other lands to do the same? However, this pressure is estimated to be gradually easing as the average maturity of the portfolio declines and the end-date for reinvestment draws closer.

## Speech by Chair Yellen on the economic outlook and the conduct of monetary policy

It takes an emotional toll on everyone who is struggling to create a better society for women, but good things do not come easy.
