Crime Rate Comparison by City

Community violence and its direct, indirect, and mediating effects on intimate partner violence. This could include community leadership and practices, public services like law enforcement, and even trust shared amongst peers.

The Impact of Crime on Community Development

Although, on average, 14% of households are below the poverty thresholds, it is the American Indians at 27% which have the highest risks of poverty. The myth of white privilege says that the police and the court system in the United States is guilty of systemic racism and bias and unfairly arrests and prosecutes blacks. Economic facets like tourism and business can be especially impacted by crime, as productivity and sales can drop in areas associated with criminal activity.
