## Publications

The administration administers the federal aid highway program, which provides funding to the states to assist in constructing highways and making highway and traffic operations more efficient. Further lower emissions were obtained by the reduction of the transmission gear ratios, effective because of the decrease in exhaust gas volume. The orientation of the callbox with the roadway should remain flexible and the preferred installation under a variety of conditions should be provided.

## United States. National Highway Traffic Safety Administration

National Highway Traffic Safety Administration; , also by Richard H.
