Filesize: 59.96 MB

This article needs additional citations for. We first compare these instruments assuming that regulators face no uncertainties as to firms' abatement costs or the benefits of environmental improvement, and then consider how uncertainty and associated monitoring and enforcement costs affect the choice among alternative policy instruments. Responsible

Ministries Category of Reviewable Projects Responsible Minister Alternate Responsible Minister Energy Projects Energy, Mines and Low Carbon Innovation Forests, Lands, Natural Resource Operations and Rural Development Mine Projects Energy, Mines and Low Carbon Innovation Forests, Lands, Natural Resource Operations and Rural Development Industrial Projects Forests, Lands, Natural Resource Operations and Rural Development Jobs, Economic Recovery and Innovation Tourist Destination Resort Projects Forests, Lands, Natural Resource Operations and Rural Development Municipal Affairs Waste Disposal Projects Municipal Affairs Forests, Lands, Natural Resource Operations and Rural Development Water Management Projects Municipal Affairs Forests, Lands, Natural Resource Operations and Rural Development Transportation Projects Transportation and Infrastructure Municipal Affairs 2016 Exemption Regulation In 2016, a new regulation exempting certain projects from having to obtain an Environmental Assessment Certificate under the Act came into force.

### The Environmental Protection (Controls on Ozone

The fee payable for the submission of an environment impact statement is the amount specified in Column 2 of Schedule 1 in relation to the category of activity specified in Column 1 of Schedule 1. The following table lists the responsible ministers and alternative responsible ministers for each category of reviewable projects. For more information, please see the.

### Environment (Fees and Charges) Regulation 2002

This digital assistant cannot advise you on your personal situation, and conversations are not monitored.

### Decree Law No. 30

Section 5 concentrates on the trade-offs between efficiency and distribution in a second-best setting. Comments will be sent to 'servicebc.gov'. Section 4 compares environmental taxes with other policy instruments including emissions quotas, performance standards, and subsidies to abatement in economies with pre-existing distortionary taxes.
