## Gender gap in land ownership

Alongside our partners, USAID works to promote women's engagement in every aspect of Kenya's development.

## Women, agriculture and the nutrition factor

For a recent paper presenting the evidence, see Olivetti, C. They collect for each household member its labor input per plot per agricultural activity. Women farmers typically have less access to irrigation technology.

## Women We Love: 25 Influential Women in Food and Agriculture

In 1890, only 24% of US households had running water. In Yemen, USAID improves the lives of women and girls by expanding opportunities for economic and community engagement and improving access to education, health, water, and sanitation services.

## Women, agriculture and the nutrition factor

National Bureau of Economic Research. Through FoodCorps, Eschmeyer placed 200 service members in schools in 17 states during 2015 alone, hoping to promote healthier eating through school gardening, cooking, and better school food procurement. Of course, this is feasible especially because women — both in 1900 and now — take on a disproportionate amount of unpaid domestic work.

## Women in Papua New Guinea to Play Stronger Role in Agriculture

Testing the quantity-quality fertility model: The use of twins as a natural experiment. She also founded the Community Supported Agriculture initiative Harvest of Hope to distribute fresh fruits and vegetables grown in community gardens to families and schools throughout the city.

## Achieving Gender Equality in Agriculture

For example, Alesina, Giuliano and Nunn 2013 contribute to the explanation of existing cross-cultural beliefs and values about the appropriate role of women in society by looking at the division of labor in the distant past. Surveys have shown that local women, with their confidence bolstered by new skills and options, have become increasingly willing to voice their opinions in village affairs.
