Who is Sonia Delaunay?

At the age of seven she went to live with her comparatively wealthy uncle Henri Terk and his wife, Anna, in St Petersburg, Russia. Besides designing, making, and selling garments in her own fashion boutique, she was responsible for costume design in a range of the performing arts including theatre and dance.

After two years in the , Delaunay moved to Paris to study at the. When erupted, the Delaunays moved to the , in an effort to avoid the invading forces. Sonia was one of the primary propagators of a movement founded by her husband Robert , a theory wedding color to form in order to achieve visual intensity on the surface of the canvas.

Sonia Delaunay Biography, Life & Quotes

Figures like Delaunay and, perhaps most famously, her contemporary Coco Chanel designed for the New Woman, who was more interested in freedom of movement and expression. Night Scene, for example, has vigorous activity, with the use of lively brushstrokes in bright colors against a dark background, not defining solid objects but the areas that surround them

But the real new painting will begin when people understand that color has a life of its own, that the infinite combinations of color have a poetry and a language much more expressive than the old methods. The following year, he married Terk, and the couple settled in a studio apartment in Paris, where their son was born in January 1911. I had great arguments with my comrades who banned color from their palette, depriving it of all elemental mobility.
