Flags are assigned semantics specific to the indicated frame type. This is mainly for use with the group picker, so the returned groups contain html to be used as picker suggestions.

Department of Health

May be the same as the 'name' attribute. Frame Format All frames begin with a fixed 9-octet header followed by a variable-length payload. This section details information on cleaning and disinfection during outbreaks of viral gastroenteritis, with further information contained in Appendix 4.

RFC 7643

The primary attribute value 'true' MUST appear no more than once. The value 0x0 is reserved for frames that are associated with the connection as a whole as opposed to an individual stream.
