Nor do many teachers have the understanding and skills they need to use inquiry thoughtfully and appropriately in their classrooms.

## 1,000+ Free Science Fair Projects for Kids

But many other strategies also are being used throughout the country to help both prospective and practicing teachers learn more about teaching science through inquiry. One is the need for teachers to do inquiry to learn its meaning, its value, and how to use it to help students learn.

## Do teachers' years of experience make a difference in the quality of teaching?

In this long-standing school desegregation case, the Jackson-Madison County School Board filed a motion for unitary status in December 1999, asserting that it had complied in good faith with prior desegregation decrees and had eliminated the vestiges of segregation to the extent practicable. §1415 j , the board should fund the placement while litigation is pending.

## Do teachers' years of experience make a difference in the quality of teaching?

Subsequently, the district moved for unitary status and we opposed. Furthermore, the assessments I gave students at the end of the unit demonstrated to me that they had learned more about energy than when I had taught it in earlier classes. We also believe that teacher development and evaluation law might play into this.
