### Introduction

It is acidic in nature containing non-metallic and volatile constituents mostly.

### The processes of formation of mineral deposits are grouped into three main types

It would appear from the evidence that the case for oxide ores is better and more secure than the case for sulfide ores. Origin Due to Surface Processes Mechanical Accumulation Concentration of heavy minerals into placer Placer Au deposits of Alaska and California. It may be regular or irregular in outline.

### Magmatic Indicator Minerals Symposium 2021

Fe deposits Iron Mtn UT.

### The processes of formation of mineral deposits are grouped into three main types

Artelsky 6, Severo-Yeniseysk, 663280, Russia e-mail: Unnamed PGE Phases from Gold Placer Deposits of South Siberia, Russia G. A special committee consisting of G. The Program Policy Committee was prompted to recommend the symposium by the realization that the underlying theory of the formation of magmatic ore deposits was formulated many decades ago.

### 9th INternational Platinum Symposium

At or once boiling, the solutions precipitate Au-Ag ore of intermediate to low sulphidation sort. Includes 1 gravitational settling; 2 flowage differentiation; 3 filter pressing and 4 dilution.

### Summary of the Symposium on Magmatic Ore Deposits

Example - stockwork porphyry copper deposit at depth epigenetic with a syngenetic massive sulfide deposit at the surface. Malitch Mineralogy and Petrology Group, Institute of Geological Sciences, University of Leoben, Peter Tunner Str.

## **Ore deposits related to magmatic activity**

Submitted Abstracts Alphabetical by First Author : Note: The Duke University server may be slow for opening PDF files. Simple crystallization without concentration b. Lingadevaru, Kuvempu University, Karnataka, India B.
