Notes about Searching the Censuses: When browsing or searching this large collection, it is important to note the following: 1 Family groups are listed together and are sometimes listed alphabetically by surname of the head of the family, but often there is often no discernible order to the listing of families. The collection is quite large: 692 rolls of microfilm

Free US Indian Census Rolls 1885

In many cases, the agent only listed the American Indian's name and perhaps the amount of money he or she received. There is no name index for this census. Spanish and Mexican Colonial Censuses of New Mexico: 1790, 1823, 1845.

American Indian Census Rolls • FamilySearch

Census-like information is also included in , enrollment records, removal records, and claims records. Often these records are called census records when, in fact, they are not and were compiled for other purposes.

FamilySearch Catalog: Indian census rolls, 1885

It was not always possible to take a census on some reservations; and some rolls were lost over the years. The questions found on the Indian Census Rolls and the process for collecting the information were not standardized, and therefore vary between years, tribes, and agents and superintendents.

Indian census rolls, 1885

After 1885, the roll would most likely have two numbers assigned: one is the order number in which the name appeared on the current census; the other is the order number in which the name appeared on the last census.

Indian census rolls, 1885

The database contains an index to the Indian census rolls from 1885-1940. Records of the Bureau of the Census Record Group 29 Though the United States first started taking a national census in 1790, New Mexico did not appear until the 1850 census 7th. For jurisdictions with more than one tribe or band or more than one reservation, there may be several rolls for each year.
