Practice Books, Grades K

Mathematically proficient students look closely to discern a pattern or structure.

Grade 2

Using only a pencil, compass, and straightedge, students begin by drawing lines, bisecting angles, and reproducing segments.

Oxford Maths for Australian Schools

Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Example: Maya had some stamps.

Grade 2

If the instantaneous speed of a car remains the same over a period of time, then we say that the car is traveling with constant speed.

Free 7th Grade Math Worksheets

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution.
