Pragmatists also believe in no absolute truths or values existing. Catalogue Persistent Identifier APA Citation Guybon, Francis.

## An essay concerning the growth of empiricism; or the encouragement of quacks. ... By Fran. Guybon, M...

How can one know what something tastes like if they have never tasted it? This is perhaps the most extreme version of empiricism known, but it has not found many defenders. They were used to identify the positions that we too call empiricist, that is, positions claiming that experience provides the basis for all of our knowledge, knowledge of the world, or substantive knowledge, and that there are no innate ideas or substantive a priori principles.
