International Economics

This old paradigm consists of the mass production of essentially standardized goods in ever-larger units; an emphasis on quantitative goals for production, requiring ever higher inputs of capital, energy, and raw materials to produce more and more; and little attention to environmental impact, resource use, and conservation issues.

Competing with the Japanese—Strategies for European business

Strategic Finance July : 26-34. The right new players at the bargaining table, acting in their own self-interests, could press for policies that make better competitive sense.

East

Government experts maintain that the Indian economy will come back to pre-Covid levels by the next financial year 2021-22 as it is recovering faster than expected. Still, the incident exposed by Pravda was not about mistreatment of a dissident.

Competing with the Japanese—Strategies for European business

Without revolutions in our political system, like those we described in the previous section, such end runs would cripple an industrial policy forum. Autonomy Currently, the authority for an effective industrial policy is spread among all branches of government and dozens of agencies.
