. These changes, however, exacerbate the orphan works issue, in that a user generally must assume that a work he wishes to use is subject to copyright protection, and often cannot confirm whether a work has fallen into the public domain by consulting the registration records of the Copyright Office. I was sad that the administration had felt it necessary to call in the police rather than negotiate.

The arresting officers removed the student from the crowd, sometimes before and sometimes after his photograph was taken with one of them. It was the trial court's duty then to devise means by which their right to effective counsel could be secured without the sacrifice of other equally fundamental procedural rights. Finance , based in The Hague and established in 2012, marks the most recent attempt to establish an arbitration institution dedicated to resolving national and international financial disputes with a specific focus on derivatives and complex financial products.

The most common approach, and perhaps the most contentious, is the use of extraterritoriality by nation states to enforce their domestic securities laws in foreign contexts. Currently, like any commodity in short supply, research subjects are not affordable or readily available. Constructing an enforcement strategy around geographical boundaries is ultimately conceptually unworkable in a market where national boundaries are meaningless.
