### Socialism Today

The Popular Front has sacrificed one of its members, with the support of the communists! It supported 26 of its members who were imprisoned for refusing to fight in Algeria.

### Address to Revolutionaries of Algeria and of All Countries (Situationist International)

We are going to make those who want to continue in the pattern of the colonial bourgeoisie understand that there is no place for them here. Average annual cereal production during the period 1982-1989 was 10 percent less than that during the war years of 1954-1961. De Gaulle took advantage of the situation to propose a new constitution with sweeping presidential powers to face down the challenges to the state.

### The Militant

They want to build a socialist economy based on the complete self-management of the workplace.

### Workers' self

But the armed people of Algeria had long been replaced by a classical army on lease to Boumedienne, who had other plans. Labor strikes created an initial nucleus of social protest. In this respect, Lyotard, supporter of the Algerians, stands on the same ground as Laurent Casanova of the PCF, who refuses to support the Algerians.

### Workers' Self

And in exchange for putting previously undeveloped state land into production, homesteaders are granted property rights to the land. Long live the dockers of Aarhus who last year effectively boycotted racist South Africa, in spite of their union leadership and the judicial repression of the Danish social-democratic government! Oppression takes on the cloak of universalist humanism, and liberation is made into a polemic against such humanism.

### Workers'\_self

Peasant self-management, though, presented the new government with a major dilemma: how to reassert control over the countryside.

### **Algeria's Food Security Crisis**

Colonial rule degraded the indigenous natives of those countries.

### **Address to Revolutionaries of Algeria and of All Countries (Situationist International)**

We fought the war in Indo-China — that was enough to know your type. Food Policies Since Independence The War of Independence from 1954 to 1962 devastated Algeria. On 22 October, 1956, after negotiations with the French government broke down, the leaders of the FLN were intercepted while flying in a Moroccan plane on the orders of Max Lejeune, Secretary of State for the Armed Forces and imprisoned in France for the duration of the conflict.
