## GP services for older people: a guide for care home managers

Three sub-themes have subsequently emerged as important in the process of strategic commissioning: stakeholder involvement; the contracting process; and the influence of the latter on service delivery. Given the availability of non-empirical literature, future research could potentially take a more narrative approach to reviewing the literature, tracking the discourses and theories present within this over time. The authors suggested that care home staff, particularly where there was no on-site nursing provision, needed further support from visiting health care professionals and involvement in anticipatory planning for residents at risk of hospital admission.

## Geographical change in residential care provision for the elderly in England, 1988

Chester H, Hughes J, Challis D.

## NHS Continuing Healthcare (NHS CHC)

Four evidence synthesis papers were also included, two of which were prepared for government. The savings threshold for care home fees The table below shows the thresholds used by local authorities in the UK to decide who is eligible for social care funding. Local stockpiles of oseltamivir for rapid deployment were held at the HPU or a designated local pharmacy in 6 of 20 territories 30% and at individual care homes in one.

## Calculating operating costs for care homes

However, care home service managers interviewed saw themselves and their staff as having expertise in EOLC in dementia, suggesting a potential mismatch between what hospices were trying to deliver outreach and what care homes actually needed: ...we are one of the units that has quite a lot of placements for training and we have specialty doctors on, we have specialist registrars on rotation here.

## Local authority funding for an elderly care home

The assessment will look at what the person's needs are and how they can best be met. Hirakawa Y, Masuda Y, Kuzuya M, Kimata T, Iguchi A, Uemura K. Option 4 This option can be mixture of the previous 3 options.

#### **Local authority funding for an elderly care home**

This was chosen because of its focus on publishing research relating to social care services provided by local authorities who have responsibility for commissioning home care. The degree of collaborative and co-ordinated working varied across services. These have enabled the compilation of a substantial national database to be compiled on needs, service and financing patterns, which both provides good information on current trends and allows modelling of the impact of future options.
