## **Women and Work: Then, Now, and What the Future Holds**

If you would like information about this content we will be happy to work with you. Taking a closer look at the corporate pipeline Four partners outline highlights from our yearly research, with, on gender equality at work. Indeed, nearly 50 percent of men think women are well represented in leadership in companies where only one in ten senior leaders are women.

### **Women are better off today, but still far from being equal with men**

Compared to last year, employees are almost twice as likely to say their companies have gender diversity targets in place for hiring.

### **Data and Statistics**

We strive to provide individuals with disabilities equal access to our website. Seventy-six percent of employees are satisfied with their job when they feel that their company prioritizes gender diversity, compared to 57 percent of employees who do not feel like their company prioritizes gender diversity. Employers need to pay more attention to the guidelines.

### **Meet the Least Happy People in America**

The majority of women between ages 18 and 64 work.

### **Women @ Work: A Global Outlook**

These choices will be signaled globally to our partners and will not affect browsing data.

### **The State of Women in America**

Candidates tend to have shorter track records early in their careers, and evaluators may make unfair, gendered assumptions about their future

potential.
