Progress Through Partnership

Despite a growing consensus that people with lived experience have a valuable contribution to the commissioning process, the involvement of people with lived experience has been minimal in NHS mental health commissioning. We love giving resources, as well as receiving them, so they get to where they're needed.

Urban Water Resilience

Aside from heavy investment from a services perspective, one of the things that differentiate AHEAD is their technical leadership. We need to adjust quickly because by 2045 more than six billion city dwellers will be relying on us.

Progress Through Partnerships

As it stands, this analysis shows a strong Q2 as well as forecasting a strong Q3. Whilst the city is a place of prosperity for some, for too many others inadequate water infrastructure and services plunge people into water related poverty.

Progress through partnerships

They are proactively blogging and engaging in trainings without having to be prompted. According to Jamison, this is the key for customers to truly drive revenue-generating applications and significantly increase operational benefits to their business.

Driving progress through partnership

This 2020 VMware Americas Partner of the Year for Services is leveraging their partnership with VMware to manage business continuity and helping to ensure they have the right skills to support their partners.

Progress Through Partnership

Rethink Mental Illness wholeheartedly supports this direction of travel and is encouraged by the strength of commitment at a national level to

coproduction. Schools as Community Regenerators — advice and support to schools, either individually or in clusters, who strive to develop their community dimension. And although the way everyone does business has changed, AHEAD continues to see a steady demand from customers.

Progress Through Partnerships

Several churches have begun to support us monthly since they decided that their efforts in a certain area of service would be more effective if they directed financial support and volunteers to Park View rather than attempting to forge ahead and build their own silo by themselves.

Urban Water Resilience

Progress through partnerships Involvement of people with lived experience of mental illness in the design and implementation of mental health services.
