## Annual Reports & Financial Statements

### Pirbright Institute

July 1, 1902—A bill to increase the efficiency and change the name of the Marine Hospital Service to Public Health and Marine Hospital Service was enacted. All correspondence between an applicant institute and the OIE Headquarters is duly documented by the OIE Headquarters.

### Animal Health Annual Progress Report

The act established a temporary National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research within the department to make a comprehensive investigation of the ethical principles involved in biomedical and behavioral research including psychosurgery and living fetus research , and to develop ethical guidelines for conducting such research. May 16, 1972—The National Sickle Cell Anemia Control Act of 1972 became law and established a national program for diagnosis and treatment of, and counseling and research in, sickle cell disease.

### Legislative Chronology

If the scope of an OIE Collaborating Centre covers both aquatic and terrestrial animal diseases, a lead Commission will be identified and the other relevant Commission Biologicals or Aquatics will be consulted. These programs predominately focus on molecular and cellular approaches to research in infectious diseases, toxicology, host defense, molecular genetics, and carcinogenesis. October 24, 1968—The President signed legislation further amending the name of NIND to National Institute of Neurological Diseases and Stroke.

### James A. Baker Institute for Animal Health Annual Report 1986

The AHCPR administrator, in consultation with the NLM director, is required to develop and publish criteria for the inclusion of practice guidelines

and technology assessments in the information center database. Comptroller General conduct, audit, and report to the Congress regarding the National Foundation for Biomedical Research. Shortly after the General Session, the newly designated OIE Collaborating Centre will receive a letter from the OIE Director General.

### **Annual Report**

When conducting an evaluation of an applicant OIE Collaborating Centre, the Commission may also take into account any other information available in the public domain that is considered as pertinent to the evaluation of the dossier. OMB was directed to 1 develop a common application, or set of common applications, for applying for Federal assistance; 2 develop a common system, including electronic processes, for grant administration activities; and 3 develop uniform administrative rules for Federal financial assistance programs across different agencies.
