Mounds View

Some mudholes are a lot deeper than they look.

Install Play Mounds at Your Playground This Summer

You may have seen mounds in play areas.

Bridges and Playmounds

Dispersing spoil in this way also reduces any environmental impact of removing spoil to a waste management site.

Playground Grass

If you proceed to build this without professional assistance, construction will take a few weekends. The E, N, and W Loop Roads are all deeply whooped, providing good practice or hard riding, or both, depending on your speed, experience and point of view! This means that mounds can be a great multigenerational play activity that is beneficial to the entire family. South Victoria Park, in the Hyde Park area of Los Angeles is a shining example of making this a reality, providing green space and active lifestyle options for more than 10,000 nearby residents.

Mounds of Fun

How to Use Play Mounds Play mounds and tunnels can have several different uses for your local or school playground, including: Adding Dimension to the Play Area The addition of small hills around the playground can make the area more aesthetically pleasing for neighboring businesses and visiting parents.

Boulders, Tree Trunks and Mounds By Playdale Playgrounds

The additional height to accommodate tunnels also help children improve their motor skills and get necessary exercise. Very few riders visit the Mounds during the week, so a weekday would be the best choice for your first trip.
