Corporal punishment in schools: Myths, problems and alternatives

The report said many of the task force recommendations merely shift around points on the sentencing scoring sheets without much impact on overall sentences, and other changes might increase sentences. Ultimately, sentencing requires delicately balancing the need to limit judicial discretion to reduce disparity while simultaneously providing judges with enough discretion to properly individualize sentences. This raises an interesting question: In states where corporal punishment is still allowed in schools, how many students attend schools where the practice has been abolished at the local level? The report has been endorsed by dozens of organizations, including the American Academy of Pediatrics, American Medical Association and Psychologists for Social Responsibility.

The case against spanking

But, at this point in time, it is basically an effective deterrent.

May

The demographics of corporal punishment in Texas school districts: A law and policy analysis Unpublished dissertation to be defended March 2012. Physicians with a subspecialty were excluded. The public defenders also said the task force report failed to compare how sentencing fared under the statutory sentencing guidelines program that began in the 1980s and lasted until it was replaced by the Criminal Punishment Code in 1998.

Skayp

Fourteen states abandoned the practice during the 1980s, eight states stopped paddling students in the 1990s, and five more states outlawed paddling during the last 12 years. Le troisième but était de présenter des méthodes alternatives, c'est-à-dire l'apprentissage social modification du comportement et l'entraînement à la maîtrise des communications. Kenneth Woodman reported that schools with rigid structures and strict enforcement of rules regarding dress, attendance, and behavior tend to suffer from racial tension and high suspension and dropout rates.

The case against spanking

HOW CORPORAL PUNISHMENT AFFECTS THE SCHOOLS During a recent symposium on school spanking at the annual convention of the American Psychological Association, several pertinent points were made, both pro and con.

Skayp

Mothers tend to beat daughters, and fathers tend to beat sons.

Delinquency, Corporal Punishment, and the Schools

Therefore, a joint effort should be made to train teachers thoroughly in nonaversive but effective techniques of pupil control. But the actual impact of the progressive-permissive-movement on child-rearing practices and on education was probably more illusion than substance, affecting only a limited number of families. Kenneth Newbold, superintendent of the North Carolina's Scotland County Schools, said: If other forms of discipline can be shown superior to corporal punishment, then I think rational thinking people would support its being outlawed.
