US Sugar Policy

They are exploiting the GameStop-Robinhood controversy as an excuse to push their ultimate goal — new taxes on the American people. According to a new in the Times Union, New Yorkers are increasingly turning to the gig economy to

make ends meet.

The U. S. Sugar Industry

For the most part, black marketeers dealt in clothing and liquor in Britain, and meat, sugar and gasoline in the United States.

Analysis of the United States sugar program

The prohibition on public competition effectuates a forced transfer from consumer to producer by allowing sugar processors to charge more for less sugar. A theoretical model is developed in which sugar beet processors are depicted as monopsonist purchasers of sugar beets as inputs into sugar production.

EconEdLink

Two boxes required only one rationing coupon, which resulted in 80 million boxes sold in 1943. Despite these figures, proponents of current protectionist sugar policies claim that they are necessary to save jobs.
