Thursday, May 6 8:00 A.

Programmes

This is one of the best short term courses available for business analytics. This course aims to educate personnel who normally fill other ICS positions about the roles and responsibilities of the EU and how they relate to other positions inside and outside of the Incident Command System ICS ; and how the EU influences decisions made throughout a response. Shoreline Clean-up Assessment Technique SCAT is a well-established systematic approach which is used to document the status of oiled shorelines and their subsequent treatment recommendations i.

International Programmes and Short Courses

These types of job oriented courses help you reap a good ROI.

Find a Short Learning Programme

This four hour overview will cover: Storage tanks and piping; Transfer operations; Facility diagrams; Closure requirements; Yearly training; Brittle fracture evaluations; Integrity testing; Security; Secondary containment; Common problems observed during agency compliance monitoring inspections and recommendations for improvement of oil spill prevention plans.

Short Courses Eduvos

.

Short Courses Eduvos

Utilizing the unique experience and first-hand knowledge of ITOPF involvement in historic and recent case studies, our presenters will cover a variety of topics including the fundamental properties of oil in the environment, the impacts of oil spills, the techniques employed to recover spilt oil

at-sea and on the shoreline, as well as command and cost recovery. The course covers topics like SEO, SEM, Social Media and Content Marketing, Branding, and Marketing Analytics. The EU is often tasked with supporting the response effort by identifying resources at risk; managing the Shoreline Cleanup Assessment Technique SCAT program; leading Endangered Species Act Section 7 and National Historic Preservation Act Section 106 Consultations, managing waste stream, and coordinating internal and external environmental stakeholder issues.

International Programmes and Short Courses

This 2-day course will present the workflows that have been developed along with spreadsheet-based exercises to solidify concepts.
